AMENDMENT UNDER 37 C.F.R. § 1.111

Assistant Commissioner for Patents
Washington, D.C. 20231

January 19, 2001

Sir:

The following amendment and remarks in connection with the above-identified application address the office action of September 19, 2000.

IN THE CLAIMS

Please amend the claims as follows:

1. (Twice amended) An isolated human protein having anti-angiogenic activity and that is a receptor for an N-terminal fragment of plasminogen comprising kringle domains 1-4 and/or 5 wherein said protein does not cleave plasminogen kringle domains.
